INDEX TO VOLUME 2

Entries in **heavy type** *refer to Special Contributions. The figures after each entry are the serial numbers of individual items; page numbers are not used in the Index*

A

ABRAHAM, E. P. & CHAIN, E.: An enzyme from bacteria able to destroy penicillin, 210
—— —— Purification and some physical and chemical properties of penicillin, 227
—— —— BAKER, W. & ROBINSON, R.: Penicillamine, characteristic degradation product of penicillin, 230
—— —— FLETCHER, C. M., FLOREY, H. W., GARDNER, A. D., HEATLEY, N. G. & JENNINGS, M. A.: Further observations on penicillin, 212
Abscess, cerebral, bacteriology, 604
Acne bacillus, isolation with penicillin, 208
Acridines, contra-indications to use on fresh wounds, 341, 342
—— local antiseptic action, 340
Adrenaline, effect following administration by implantation, 338
Aerosols: *see* Air, disinfection
Africa, nutrition in, 485
—— staple diet, effect on rats, 545
Agglutination and agglutinins, 420
Agglutinogen, artificial, in blood-group A, 422
AGNEW, A. P. & KYLES, W. B.: Typhus fever in Gt. Britain, 574
Agranulocytosis following arsenotherapy, 468
Air, disinfection, 557, 585, 586, 587, 588
ALBERT, M. & MITCHELL, W. R. D.: Volkmann's ischæmia of the leg, 417
ALEXANDER, F.: Study of the distribution of sulphanilamide, 319
ALLEN, I.: *see* KING, J. D. *et al.*, 530
ALLIBONE, E. C. & BAAR, H. S.: Fibrinogen deficiency as a factor in hæmorrhagic disease, 475
ALLOTT, E. N., CRUICKSHANK, R., CYRLAS-WILLIAMS, R., GLASS, V., MEYER, I. H., STRAKER, E. & TEE, G.: Infection of cat-bite and dog-bite wounds with *Pasteurella septica*, 596
ALMEYDA, J.: *see* WILLIS, F. E. S. & ALMEYDA, J., 261
Aluminium, failure to prevent experimental silicosis, 254
Amblyopia due to vitamin deficiency, 524
*di*Amidines: *see* Diamidines; Pentamidine; Phenamidine; Propamidine; Stilbamidine
Amino-acids, assay, microbiological methods, 486
—— relation to trauma and wound-healing, 486
—— requirements, 486
—— therapeutic effects, 486
p-Aminobenzoic acid, synergistic effect on penicillin, 221
Anæmia, 439-461
—— aplastic and hypoplastic, recent work on, 423
—— —— following arsenotherapy, 468
—— chronic, determination of blood volume in, 479
—— destruction of transfused erythrocytes in, 450
—— erythroblastic, of childhood, 459
—— from nutritional iron deficiency, 439, 440, 441, 442
—— hæmolytic, 447, 448, 449
—— —— acute, with auto-agglutination and auto-hæmolysis, 449
—— —— recent work on, 423
—— hypochromic, recent work on, 423
—— in children, treatment with iron and ascorbic acid, 443
—— in infants and children, blood regeneration rate in, 451, 452
—— in infections, 458
—— macrocytic, treatment with autolysed yeast, 446
—— megaloblastic, in pregnancy and puerperium, 457
—— of pregnancy, hæmatological study of 48 cases, 456
—— pernicious, recent work on, 423
—— —— treatment with liver preparation, 444
—— **recent work on, 423**
—— refractory, 453, 454, 455
—— treatment with erythrocyte transfusions, 460, 461
Anærobic infections, effect of penicillin on, 215, 216, 217
Anæsthesia in thoracic surgery, 244
ANDERSON, D. M.: *see* TODD, G. S. & ANDERSON, D. M., 262
ANDERSON, P. H. R., BUCHANAN, J. A. & MACPARTLAND, J. J.: Oiled floors to control respiratory infection: an army experiment, 580
ANDERSON, T.: Effect of chemotherapy on mortality from pneumonia in Glasgow, 325
—— Some aspects of the chemotherapy of pneumonia, 324
Andrewes, C. H.: Virus diseases of man: Review of recent progress, 551
—— & GLOVER, R. E.: Influenza "A" outbreak of October–December, 1943...561
—— —— HIMMELWEIT, F. & SMITH, W.: Influenza virus as laboratory contaminant, 562
—— KING, H. & VAN DEN ENDE, M.: Chemotherapeutic experiments with viruses of influenza A, lymphogranuloma venereum and vaccinia, 220
Aneurin, and toxæmia of pregnancy, 354
—— estimation, in National flour and bread, 493
—— —— methods, 491
Aneurysm, false, traumatic, treatment of, 393
—— varicose, treatment of, 393
Anthiomaline in treatment of lymphogranuloma inguinale, 333
Antibiotics produced by bacteria, 201
—— **produced by moulds, 201**
Antibody, incomplete, in anti-Rh sera, 435
Antigens, bacterial, chemical nature of, 555
Antimony compounds, in treatment of lymphogranuloma inguinale, 333
Antiseptic snuffs, 232
Antiseptics: acridines, local action, 340
—— phemeride (phemerol), 334
—— proflavine, local action, 340
Antitoxin in *Cl. welchii* infection, comparison with penicillin, 217
Apicolysis, extrafascial, and thoracoplasty, 266
APTHORP, J. O. E.: *see* FALKINER, N. M. & APTHORP, J. O. E., 357
ARCHER, G. T. L.: *see* BAKER, C. G. *et al.*, 568
Arm, traumatic ischæmia, 416
ARMSTRONG, T. G.: *see* JONES, H. E. *et al.*, 533
Arsenicals, chemical structure in relation to drug resistance of trypanosomes, 303
—— effect of mepacrine treatment on efficacy of, 314
Arsphenamines, agranulocytosis and aplastic anæmia following administration of, 468
—— biological standardization, 295, 332
Arteries, contusion, treatment of, 393
—— **injuries, treatment of, 393**
—— peripheral, thrombosis, 413
—— spasm, traumatic, 393, **394**, 395
—— —— types, 394
Arteriovenous fistula, treatment, 393
Arteritis, traumatic, 395
Ascorbic acid: *see* Vitamin C
l-ascorbic acid, 487
ASLETT, E. A., DAVIES, T. W. & JENKINS, T. I.: Radiological appearances in the development of coal miners' pneumokoniosis, 255
ATEBRIN: *see* Mepacrine
Azo colour reaction, for determination of vitamin B_1 in national flour, 494

B

BAAR, H. S.: Studies in the anæmias of infancy and early childhood. XIII. Experiments on blood regeneration and their significance for the life span of erythrocytes, 452
—— & LLOYD, T. W.: Studies in the anæmias of infancy and early childhood. XII. Regeneration rate of hæmoglobin and life span of erythrocytes in normal and pathological conditions, 451
—— *see* ALLIBONE, E. C. & BAAR, H. S., 475
Babesiasis, treatment with diamidines, 293
Bacillus fæcalis, in sputum, biochemical classification of, 605
—— *pyocyaneus*, as inactivator of penicillin, 225
—— —— in sputum, biochemical classification of, 605
Bacteria, antibiotics from, 201
—— **antigens of, chemical nature, 555**
—— destruction with aerosols: *see* Air, disinfection
—— enzymes, 592, 593, 594
—— —— detection in infected tissues, 595
—— Gram-negative, antigens of, 555
—— —— isolation of specific somatic antigens from, 555
—— Gram-positive, antigens of, 555
—— **inhibition of, by penicillin, 200**
—— morphological effects of penicillin on, 211
Bacteriology, development of study of, in Gt. Britain, 550
—— media, selective action of tetrathionate in, 598
—— research and teaching, 550
Bacteriostasis, slide cell technique for measurement of, 240
Bacterium aerogenes, as inactivator of penicillin, 225
—— —— *capsulatus*, effect of penicillin on, 237
—— *anaerogenes*, in sputum, biochemical classification of, 605
—— *coli*, as inactivator of penicillin, 225
—— —— in sputum, biochemical classification, 605
—— —— *intermedius*, in sputum, biochemical classification of, 605
—— *flexneri*, as inactivator of penicillin, 225
—— *friedländer-aerogenes*, in sputum, biochemical classification of, 605
—— *lactis aerogenes*, effects of resorcinol and *m*-cresol on growth of, 308
—— —— —— growth in presence of sulphonamides, 309
—— —— —— morphological and other variations, 307
—— *paratyphosum* B, typing with Vi bacteriophage, 552
—— *proteus-morgani*, in sputum, biochemical classification of, 605
—— *typhi-murium*, as inactivator of penicillin, 225
—— *typhosum*, as inactivator of penicillin, 225
—— —— typing by Vi bacteriophage, 552
BADCOCK, M.: Speech therapy for certain vocal disorders, 386
BAKER, A. H. & TWORT, C. C.: Germicidal mists and vapours in air disinfection, 586
BAKER, C. G., ARCHER, G. T. L. & MITCHELL-HEGGS, G. B.: Endemic typhus fever in Diego Suarez, Madagascar, 568
BAKER, W.: *see* ABRAHAM, E. P. *et al.*, 230
BALL, M.: *see* DREW, W. R. M. *et al.*, 281
BARANGER, P. & THOMAS, P. E.: Action on avian malaria of the alkaloids of cinchonas from the Cameroons and Belgian Congo, 313
Barbiturates, effects on metabolic processes in central nervous system, 299
BARCLAY, R. S.: Some observations on eighty consecutive cases of internal pneumonolysis, 263
BARDHAN, P. N., TYAGI, N. & BOUTROS, K.: Dry blood test for typhus fever: preliminary report, 571
BARNES, J.: *see* HAMILTON, W. J. *et al.*, 361
BARTON-WRIGHT, E. C.: *see* BOOTH, R. G. & BARTON-WRIGHT, E. C., 495
—— *see* MACRAE, T. F. *et al.*, 496
Bayer 7602 (Ac), 317
BECK, D. J. K.: *see* RUSSELL, D. S. & BECK, D. J. K., 342
Beef, nicotinic acid and riboflavin content, 495
BEGG, A. M., FULTON, F. & VAN DEN ENDE, M.: Inclusion bodies in association with typhus rickettsiae, 566
BELL, G. H. & GUTHMANN, E.: Simple inexpensive photoelectric hæmoglobinometer, 470
Bell, J.: Development of medical studies in Britain: II. The genetical aspect of disease, 346
BELT, T. & KING, E. J.: Failure of aluminium to prevent experimental silicosis, 254
BENJAMIN, B.: *see* DALEY, W. A. & BENJAMIN, B., 289
Benzedrine, effect on metabolic processes in central nervous system, 299
Benzpyrene, carcinogenic action, 396
Benzyl benzoate, sarcopticidal efficiency, 335
BIGELOW, W. G. & LANYON, E. C. G.: Some uses for dry cold therapy, and a proposed cooling cabinet, 407
BIGGER, J. W.: Bacteriological investigations in a mass chest survey, 257
BINGHAM, K.: *see* MACKAY, H. M. M. *et al.*, 442
—— *see* WILLS, L. *et al.*, 441
BISHOP, P. M. F.: Endocrine therapy in gynæcology and obstetrics, 368
BLACK, D. A. K., MCCANCE, R. A. & YOUNG, W. F.: Study of dehydration by means of balance experiments, 507
Blackwood, W.: Injury from exposure to low temperature: pathology, 390
—— A pathologist looks at ischæmia, 414
—— Studies in the pathology of human 'immersion foot,' 401
—— & RUSSELL, H.: Experiments in the study of immersion foot, 398
—— *see* LEARMONTH, J. R. *et al.*, 395, 413
—— *see* UNGLEY, C. C. & BLACKWOOD, W., 397
BLAIKLEY, J. B.: *see* KNOTT, F. A. & BLAIKLEY, J. B., 584
Blast injuries, pathology, 274
Blood, bacteriostatic power, measurement of, 240
—— concentration of sulphonamides in, 294
—— donors, syncope in, 476, 478
—— effect of penicillin on, 202, 212, 213
—— estimation of vitamin C in, 500
—— group substances, human, nature, 422
—— —— —— occurrence in tissues and body fluids, 422, 438
—— groups, 420, 421, 422, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438
—— —— genetic and forensic implications, 420
—— —— **inheritance, recent observations on, 421**
—— plasma, action of coagulase on, 602
—— —— ascorbic acid level, 487
—— —— —— —— in hospital residents, 503, 504
—— —— changes during storage, 473
—— —— clot occlusion of bronchi in treatment of chronic tuberculous cavitation, 270
—— —— proteins, and hæmoglobin production, 486
—— —— —— effect on blood sedimentation rate, 472
—— —— —— in infants, 471
—— —— volume, determination by Evans-blue method, 480, 481
—— platelets in experimental thrombocytosis, 462
—— pressure, venous, during venesection and blood transfusion, 477
—— sedimentation rate, effect of plasma proteins on, 472
—— serum, changes during storage, 473
—— —— proteins, estimation of, 474
—— —— —— variations in level of, 474
—— sugar, effect of diamidines on, 316
—— transfusion, history of, 389
—— —— in anæmia, erythrocyte destruction in, 450
—— —— in erythroblastosis fœtalis, 429
—— —— incompatible, symptomless, 436
—— —— venous pressure during, 477
—— vessels, effect of frostbite on, 402
—— —— peripheral, circulation of, nervous control, 408, 409, 410, 411, 412
—— —— —— **disorders of, 389**
—— —— —— injuries to, due to cold, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404
—— —— reflex vasodilatation in surgery, 411
—— volume, determination after blood loss, 425
—— —— —— by Evans-blue method, 480, 481
—— —— —— in chronic anæmia, 479
—— —— restoration after injury, 389
Blood-brain barrier, relation to efficacy of trypanocides, 298
BODENHAM, D. C.: Infected burns and surface wounds: value of penicillin, 238
Bone, infected, radiological picture following penicillin therapy, 202
—— growth, effect of vitamins on, 520, 521
—— marrow, biopsies, in refractory anæmias, 453, 454, 455
BONNEY, V. & MCINDOE, A. H.: Unique constructive operation, 367
Books, Memoranda, Reports, 290, 344, 370, 387, 418, 482, 548, 606 [An alphabetical list of the books, memoranda and reports reviewed in this volume is given at the end of the Index.]
Boome, E. J.: The scope of speech therapy, 374
BOORMAN, K. E. & DODD, B. E.: The group-specific substances A, B, M, N and Rh: their occurrence in tissues and body fluids, 438
—— —— & MOLLISON, P. L.: The incidence of hæmolytic disease of the fœtus ("erythroblastosis fœtalis") in different families: the value of serological tests in diagnosis and prognosis, 432
BOOTH, R. G. & BARTON-WRIGHT, E. C.: Nicotinic acid and riboflavin in beef extracts and corned beef, 495
BOURNE, G.: Some experiments on the possible relationship between vitamin C and calcification, 521
BOUTROS, K.: *see* BARDHAN, P. N. *et al.*, 571
BOYCOTT, M.: *see* POLES, F. C. & BOYCOTT, M., 476
Brain, abscess, bacteriology, 604
—— lesions, effect on vestibular responses, 381
—— respiration, effect of narcotics on, 299
BRANSBY, E. R., HUNTER, J. W., MAGEE, H. E., MILLIGAN, E. H. M. & RODGERS, T. S.: Influence of supplements of vitamins A, B_1, B_2, C, and D on growth, health, and physical fitness, 537

Bread, composition, 484
—— vitamin B, content, 493, 494
—— war-time supply in Britain, 492
Breast: *see* Lactation
BRIDGES, R. F.: Note on preparation of suspensions for the Weil-Felix test, 573
Bright's disease, plasma amino-acid level in, 486
Britton, C. J. C.: Recent work on anæmias, 423
Brock, R. C.: The present position of thoracic surgery, 244
—— Bronchial anatomy and the surgery of lung abscess, 247, 248
—— Interlobar fissures of the lungs, 250
—— Surgical treatment of bronchial carcinoma, 259
—— HODGKISS, F. & JONES, H. O.: Bronchial embolism and posture in relation to lung abscess, 249
BROCKBANK, W. & WHITTAKER, S. R. F.: Notes on typhus fever in the Middle East, 570
Bronchiectasis, lobectomy and pneumonectomy in, 244
Broncho-alveolar cysts, 261
Bronchus, anatomy, diagrammatic summary of, 246
—— —— **recent work on, 245**
—— —— and surgery of lung abscess, 247, 248
—— artificial occlusion, in treatment of chronic tuberculous cavitation, 270
—— carcinoma, pneumonectomy in, 244
—— —— surgical treatment, 259
—— posture in relation to embolism and lung abscess, 249
BROOKS, W. D. W.: Early diagnosis of new growths of the lung, 260
BROWN, G. M., HAYWARD, O. C., POWELL, E. O. & WITTS, L. J.: Destruction of transfused erythrocytes in anæmia, 450
BROWNE, F. J.: Reactions to pressor substances in normal and toxæmic women, 355
BUCHANAN, J. A.: *see* ANDERSON, P. H. R. *et al.*, 580
BURN, J. H. & WITHELL, E. R.: A principle in raspberry leaves which relaxes uterine muscle, 353
BURNETT, C. W. F.: *see* HARTLEY, J. B. & BURNETT, C. W. F., 362, 363
Burns, effect of penicillin and propamidine on, 234
—— infected, effect of penicillin on, 238
—— protein loss in, 486
BURROWS, H.: Nomenclature of hormone-producing tumours of the ovary, 369

C

Calcium absorption, effect of National Wheatmeal on, 512
—— —— effect of protein derivatives on, 514
—— carbonate, antirachitogenic power in rats, 513
—— metabolism, seasonal and annual changes, 511
—— phosphate, antirachitogenic power in rats, 513
—— role in nutrition, 489
—— war-time supply in Britain, 492
Calorie requirements, 486
Calories, war-time supply in Britain, 492
CAMPBELL, J. A.: Lung tumours in mice and man, 253
Cancer, pulmonary, in mice and man, 253
CAPPELL, D. F.: *see* RACE, R. R. *et al.*, 426
Carboxyhæmoglobin, determination of, 424
Carcinogenic action of benzpyrene, 306
Caries, dental, effect of fluorine on, 525, 526, 527, 528
—— —— **nutritional factors, 490**
CARTWRIGHT, J. A.: *see* KAPELLER-ADLER, R. & CARTWRIGHT, J. A., 354
CATCH, J. R., COOK, A. H. & HEILBRON, I. M.: Purification and chemistry of penicillin, 229
Catechol, as air disinfectant, 585
CAWTHORNE, T. E.: Treatment of Ménière's disease, 383
—— FITZGERALD, G. & HALLPIKE, C. S.: Studies in human vestibular function. II. Observations on the directional preponderance of caloric nystagmus ("Nystagmusbereitschaft") resulting from unilateral labyrinthectomy. III. Observations on the clinical features of Ménière's disease: with special reference to the results of caloric tests, 381
Cerebrospinal fever: *see* Meningitis
—— fluid, relation to efficacy of trypanocides, 298
—— fluid, trypanocidal power, 298
CHADWICK, V.: *see* JONES, H. E. *et al.*, 533
Chain, E.: Antibacterial substances [other than penicillin] from bacteria and moulds, 201
—— **& Florey, H. W.: Discovery of the chemotherapeutic properties of penicillin, 199**
—— —— GARDNER, A. D., HEATLEY, N. G., JENNINGS, M. A., ORR-EWING, J. & SANDERS, A. G.: Penicillin as a chemotherapeutic agent, 209
—— *see* ABRAHAM, E. P. & CHAIN, E., 210, 227
—— *see* ABRAHAM, E. P. *et al.*, 212, 230
CHALLINOR, S. W. & DUGUID, J. P.: Propylene glycol vapour as an air disinfectant: I., 587
—— & MACNAUGHTAN, J.: The production of penicillin, 223
—— *see* DUGUID, J. P. & CHALLINOR, S. W., 588
Chemotherapy, relations between *in vivo* and *in vitro* actions of drugs, 300
Chest diseases, rehabilitation in, 276
—— injuries, closed, pathology of, 273
—— surgery, in wartime, 271, 272, 273, 274
—— —— post-operative radiology, 278
—— —— **present position, 244**
—— —— scope of, 275
—— war wounds and injuries, 271, 272
CHICK, H. & CUTTING, M. E. M.: Nutritive value of the nitrogenous substances in the potato as measured by their capacity to support growth in young rats, 518
CHICK, H.: *see* Peters, R. A. *et al.*, 493
Childhood infection, relation to adolescent and adult pulmonary tuberculosis, 282
Children, anæmia in, blood regeneration rate in, 451, 452
—— —— due to war-time diet, 441, 442
—— —— erythroblastic, 459
—— —— treatment with iron and ascorbic acid, 443
—— deaf and dumb, education of, 378, 379
—— dentition, improvement since 1929...526
—— Gibraltar, gingival disease in, 530
—— nutritional state, 539, 540
—— pulmonary tuberculosis in, 282, 283, 284
—— vitamin A and C levels in, 535
Choline, lipotropic action, 486
CHRISTOPHERS, S. R.: Cell metabolism of the malaria parasite in relation to the mode of action of antimalarial drugs, 297
Cinchona alkaloids, value in avian malaria, 313
Circulation, dynamics of, **425**, 476, 477, 478, 479, 480, 481
CLARK, A. M., COLEBROOK, L., GIBSON, T., THOMSON, M. L. & FOSTER, A.: Penicillin and propamidine in burns: elimination of hæmolytic streptococci and staphylococci, 234
CLARKE, A. G. & PRESCOTT, F.: Studies in vitamin B deficiency with special reference to mental and oral manifestations, 516
CLEGG, J. W. & KING, E. J.: Estimation of hæmoglobin by the alkaline hæmatin method, 469

V

Vaccines, in prophylaxis of virus diseases, 551
Vaccinia virus, effect of penicillin on, 220
—— —— morphology and development *in vitro*, 565
—— —— ultramicroscopical observations, 565
Vagina, artificial, construction, 367

VAN DEN ENDE, M.: Apparatus for the safe inoculation of animals with dangerous pathogens, 601
—— *see* ANDREWES, C. H. *et al.*, 220
—— *see* BEGG, A. M. *et al.*, 566
VAN DER WALT, E. D.: *see* LOUTIT, J. F. *et al.*, 477
VAN ROOYEN, C. E. & MORGAN, A. D.: Poliomyelitis: experimental work in Egypt, 563
—— *see* PAUL, J. R. *et al.*, 564
Vasoconstrictor fibres, spinal origin of, 409
Vasodilatation, reflex, in surgery, 411
Vasomotor disturbances in hand after injuries of peripheral nerves, 410
—— reflexes, mechanism of production by stimulation of sensory nerves, 408
—— responses of hand following section of anterior nerve roots, 409
VASS, C. C. N.: *see* PRUNTY, F. T. G. & VASS, C. C. N., 503, 504
VAUGHAN, J. M.: *see* MCMICHAEL, J. *et al.*, 479
—— *see* SAIFI, M. F. & VAUGHAN, J. M., 458
Vegetables, war-time supply in Britain, 492
Veins, blood-pressure in, during venesection and blood transfusion, 477
—— —— —— following hæmorrhage, 425
—— thrombosis, traumatic, 395
Vestibular function, 381, 382, 383
Vi agglutination test, use in detection of typhoid and paratyphoid-B carriers, 552
—— bacteriophage, in typing of typhoid and paratyphoid-B bacillus, 552
VICKERS, H. E.: Sulphapyridine absorption through the human pleura, 321
Virus diseases of man: review of recent progress, 551
—— —— chemotherapy, 551
Viruses, agglutination of erythrocytes by, 551
—— apparatus for safe inoculation of, 601
—— chemical and physical studies, 551
—— classification, 551
—— culture, 551
—— interference phenomenon, 551
Vitamin A and parodontal disease, 490
—— —— deficiency, effect on ear, 376
—— —— estimation, methods, 491
—— —— levels in school-children, 535
—— —— standardization, statistical examination of accuracy of methods, 497
—— —— war-time supply in Britain, 492
—— B deficiency, mental and oral manifestations, 516
—— —— determination, methods, 491
—— —— effect on growth of fibroblasts, 520
—— B_1 and toxæmia of pregnancy, 354
—— —— estimation, in national flour and bread, 493, 494
—— —— war-time supply in Britain, 492
—— B_2: *see* Nicotinic acid: Riboflavin
—— C, and parodontal disease, 490
—— —— apparent increase in stored food, 498
—— —— effect on upper respiratory tract infections, 376
—— —— —— in blood, 500
—— —— —— in urine, 499
—— —— —— methods, 491
—— —— **evaluation of present knowledge of, 487**
—— —— in treatment of anæmia, 443
—— —— intake, and complement activity, 501
—— —— level in pregnancy in war-time, 502
—— —— —— in scurvy, 504, 505
—— —— levels in school-children, 535
—— —— nutrition in hospital residents, 503, 504
—— —— relationship to calcification of bone, 521
—— —— requirements, assessment of, 487
—— —— saturation, 487
—— —— value in treatment of bleeding gums, 532
—— —— war-time supply in Britain, 492
—— D, and calcium metabolism, 489
—— —— estimation, methods, 491
—— —— war-time supply in Britain, 492
Vitamin K, in treatment of hæmorrhage disease of newborn, 464
Vitamins, deficiency, effect on physical condition of school-children, 535
—— **determination, physical, chemical, and microbiological methods, 491**
—— effect on physical fitness, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543
—— estimation, in food and body-fluids, 493, 494, 495, 496, 497, 498, 499, 500
—— influence on physiology and pathology of ear, nose and throat, 376
—— supplementary, effect on physical condition, 534, 535, 536, 537, 539, 543
Voice, audibility, 384
—— *see also* Speech
—— disorders, speech therapy in, **374**, 386
Volkmann's ischæmic contructure, 415, 417

W

WALKER, K.: *see* GREEN-ARMYTAGE, V. B. *et al.*, 358
WALLER, H. K.: Reflex governing the outflow of milk from the breast, 366
WARDLEY, J. R.: *see* GORDON, C. M. & WARDLEY, J. R., 472
War-time, occurrence of anæmia in, 439, 440, 441, 442
Water and salt balance in man, 488
—— effect of reduced intake, 488, 507, 508
—— **metabolism, 488**, 506, 507, 508, 509, 510
—— —— in infants, 509, 510
—— sources of intake in man, 488
